# Redirection and Sessions

```
session = requests.Session()  
session.max_redirects = 3  
response = session.get('http://127.0.0.1')
```

# Iterating through Redirections

```
response = requests.get('http://127.0.0.1')  
for resp in response.history:  
    print(resp.status_code, resp.url)
```

# Default Timeout in Sessions

```
session = requests.Session()  
session.timeout = 5  
response = session.get('http://127.0.0.1')
```
