JdbcTemplate

NamedParameterJdbcTemplate

Demo

Delete JdbcTemplate

Delete NamedParameterJdbcTemplate

Delete

```
public void deleteSpeaker(Integer id) {
    jdbcTemplate.update(
     "delete from speaker where id = ?", id);
}
```

Named Parameters

```java
public void deleteSpeaker(Integer id) {
    NamedParameterJdbcTemplate namedTemplate = new
    NamedParameterJdbcTemplate(jdbcTemplate);

    Map<String, Object> paramMap = new HashMap<>();
    paramMap.put("id", id);
    namedTemplate.update(
      "delete from speaker where id = :id", paramMap);
}
```

Summary

Delete
